## **End Application:**

Aim-120 amraam missile

## **General Description:**

Materials: barrel valve spring: corrosion resistant steel, commercial grade, type 302 or 304; swivel plug, cup, and center pin: brass or bronze, commercial grade; cup seal: silicone rubber, 70 durometer; barrel seal: polytetrafluoroethylene, commercial grade, 0.0001 inch think; operating temperature; minus 65 degrees to plus 350 degrees temp f; operating pressure; 0to 350 psi; opening spring pressure; 50 psi

Shelf Life:

N/a

**Unit Of Measure:** 

--

## **Demilitarization:**

Yes - demil/mli
