Flow Control Device:

Disk

End Application:

Acft, type c-17a

Valve Operation Method:

Automatic

Special Features:

Outside diameter 6.440 in. Maximum (approx): length-4, 740 in. Min to 4.760 in. Max; maximum normal inlet pressure 109psig at 630 degrees f; maximum normal inlet temperature 655 degrees f at 95 psia; ambient pressure 1.0 to 15.5 psia; ambient temperature range 0 degrees to 450 degrees f (normal); ambient temperature range minus 77 degrees to 450 degrees f (intermittent)

Style Designator:

Straight thru

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A530b0
