Overall Length:

3.620 inches

End Application:

Special aircraft and engine tool and support equipment and parts

Special Features:

Cover, fuel valve assembly, engine test assembly gts/apu mk2/mk4 adapter assembly

Material:

Aluminum alloy

Material Specification:

Qq-a-225/6.Temp 351 federal specification single material response

Surface Treatment:

Anodize

Surface Treatment Specification:

Mil-a-8625 type i military specification single treatment response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A513b0

Mil-std (military Standard):

Mil-a-8625 spec.
