End Application:

Aircraft model f-18

Valve Operation Method:

Air

Face To Face Distance:

3.760 inches

First Connection Face To Centerline Distance:

3.620 inches

Special Features:

Surge control valve

Material:

Aluminum alloy a356.0

Material Specification:

Mil-a-21180 military specification single material response

Surface Treatment:

Anodize

Style Designator:

A2a cross flanged ends

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A046b0

Mil-std (military Standard):

Mil-a-21180 spec.
