Body Material:

Copper alloy

Tempurature Rating:

200.0 degrees fahrenheit

Media For Which Designed:

Refrigerant 22

End Connection Quantity:

2

Valve Expansion Control Type:

Thermostatic

End Application:

4120-00-998-6673

Refrigeration Capacity In Btu Per Hour:

60.0

Special Features:

De-super heating tre v valve

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A07100
