Thread Direction:

Right-hand 1st end

Minimum Operating Temp:

-320.0 degrees fahrenheit

End Application:

Tmu-24/e

Connection Style:

G9 plain, optional en (pipe) 2nd end

Valve Operation Method:

Automatic

Connection Type:

Threaded internal pipe 2nd end

Thread Size:

0.750 inches 2nd end

Opening Pressure Setting:

55.0 pounds per square inch

Special Features:

W/o lever

Material:

Copper alloy body

Media For Which Designed:

Oxygen, liquid 2nd response

Style Designator:

Err-090

Thread Series Designator:

Npt 1st end

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No
