| Pipe Size Accommodated:                       |
|---|
| 1.000 inches all ends                         |
| Flow Control Device:                          |
| Disk  |
| Bonnet Type:                                  |
| Outside screw-yoke                            |
| Bonnet Attachment Method:                     |
| Bolted  |
| End Application:                              |
| Strategic sea lift conversion ships class     |
| Connection Style:                             |
| Socket err-100                                |
| Valve Operation Method:                       |
| Manual  |
| Connection Type:                              |
| Unthreaded internal pipe all ends             |
| Maximum Operating Pressure:                   |
| 1375.0 pounds per square inch single response |
| Special Features:                             |
| Stop check type                               |
| Material:                                     |
| Stainless steel stem                          |
| Style Designator:                             |
| Err-090                                       |
| Shelf Life:                                   |
| N/a   |
| Unit Of Measure:                              |
|   |
| Demilitarization:                             |
| No  |
| Fiig:   |
| A046b0  |
