Overall Length:

2.250 inches

End Application:

Seawolf class ssn

Valve Type For Which Designed:

Lift-check

Features Provided:

Integral disk and threaded

Valve Size For Which Designed:

0.250 inches

Stem Actuating End Type:

Hexagon male

Material:

Copper alloy

Material Specification:

Qq-c-465 alloy c63000 federal specification single material response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A503z0
