Flow Control Device:

Disk

Maximum Operating Temp:

425.0 degrees fahrenheit single response

End Application:

Nimitz class cvn

Maximum Operating Pressure:

400.0 pounds per square inch 2nd response

Special Features:

Stop type for valve size 1.250in

Material:

Copper alloy 922 seat

Media For Which Designed:

Water, salt 2nd response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A046b0
