Body Material:

Aluminum alloy

Maximum Operating Pressure:

0.5 pounds per square inch

Body Style:

A1 straight thru

First End Connection Type:

Threaded internal tube

First End Style Designator:

Plain

First End Outside Diameter Tube Accommodated:

0.500 inches

First End Thread Direction:

Right-hand

Flow Control Device:

Disk, flat

Flow Control Device Material:

Aluminum bronze

End Connection Quantity:

1

Valve Venting Design Type:

Atmospheric

Valve Relief Design Type:

Pressure and vacuum

End Application:

Aircraft, airlifter c-17a

First End Thread Series Designator:

Unf

First End Thread Size:

0.750 inches

Special Features:

Manual-release push button

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A07100
