Fluid Pressure Regulating Valve - Page 1 of 1

View Online at https://aerobasegroup.com/nsn/4820-01-422-5653

Body Style:
Straight thru
Stem Material:
Nickel copper alloy
First End Connection Type:
Unthreaded internal pipe
First End Pipe Size Accommodated:
2.000 inches
Seat Material:
Nickel copper alloy
Outlet Pressure Range:

Regulation Type:

Automatic single stage

Outlet Pressure Setting:

75.0 pounds per square inch

+40.0/+100.0 pounds per square inch

End Application:

Wasp class Ihd-5

Shelf Life:

N/a

Unit Of Measure:

Demilitarization:

No

Fiig:

A21100
