**Body Material:**

Aluminum

**Maximum Operating Pressure:**

2.0 pounds per square inch

**Outside Surface Treatment:**

Anodized

**Body Style:**

Single connection, straight flow

**First End Connection Type:**

Threaded external pipe

**First End Style Designator:**

Plain

**First End Pipe Size Accommodated:**

0.750 inches

**First End Thread Direction:**

Right-hand

**Flow Control Device:**

Any acceptable

**End Connection Quantity:**

1

**Opening Pressure Setting:**

0.5 pounds per square inch

**Valve Venting Design Type:**

Atmospheric

**Valve Relief Design Type:**

Pressure and vacuum

**Absolute Pressure Setting:**

2.0

**End Application:**

5895-01-392-0045

**First End Thread Series Designator:**

Npsm

**First End Thread Size:**

0.750 inches

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fig:**

A07100
