Body Material:

Aluminum

Maximum Operating Pressure:

3.0 pounds per square inch

Outside Surface Treatment:

Anodized

Body Style:

Single connection, straight flow

First End Connection Type:

Threaded external pipe

First End Style Designator:

Plain

First End Pipe Size Accommodated:

0.750 inches

First End Thread Direction:

Right-hand

Flow Control Device:

Any acceptable

End Connection Quantity:

1

Opening Pressure Setting:

0.5 pounds per square inch

Valve Venting Design Type:

Atmospheric

Valve Relief Design Type:

Pressure and vacuum

Absolute Pressure Setting:

3.0

End Application:

5895-01-392-0045

First End Thread Series Designator:

Npsm

First End Thread Size:

0.750 inches

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A07100
