Body Material:

Aluminum and steel

Media For Which Designed:

Hydraulic oil

First End Pipe Size Accommodated:

1.000 inches

Mounting Facility:

Bolts

Manual Control Method:

Screw

Outlet Pressure Setting:

3000.0 pounds per square inch

Filter:

Not included

End Application:

Navy weapons system code, th, strategic sealift conversion ships class

Special Features:

Assembly includes (2) cbea lan pressure regulating valves

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A21100
