Body Material:

Brass

First End Flange Outside Diameter:

6.000 inches

Body Style:

Straight thru

First End Connection Type:

Plain face flange

First End Style Designator:

Plain

First End Flange Shape Style:

Round w/ bolt holes

Flow Control Device:

Diaphragm

End Connection Quantity:

2

Capillary Tube Length:

56.000 inches

Thermostatic Element:

Liquid immersion type

Special Features:

Refrigerant pressure crack point 120 to 250 psi

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A21100
