Flow Control Device:

Disk

Maximum Operating Temp:

450.0 degrees fahrenheit single response

End Application:

Supply class aoe

Valve Operation Method:

Automatic

Connection Type:

Flange all ends

Opening Pressure Setting:

38.0 pounds per square inch

Flange Face Design:

Plain all ends

Special Features:

Packed lifting lever

Material:

Stainless steel body

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A046b0
