Flow Control Device:

Disk

Bonnet Type:

Outside screw-yoke

Bonnet Attachment Method:

Bolted

Valve Operation Method:

Manual

Connection Type:

Flange all ends

Valve Size:

1.000 inches

Face To Face Distance:

5.000 inches

Flange Face Design:

Raised straight all ends

Material:

Steel

Material Specification:

Astm a105nlc assn standard single material response

Style Designator:

Err-090

Furnished Items And Quantity:

1 handwheel

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A046b0
