Cross-sectional Shape:

Concave

Disk Type:

Composite

Features Provided:

Nonfragmenting and vacuum support

Burst Pressure:

16.8 pressure pounds per square inch absolute

Disk Material:

Nickel alloy

Burst Temperature:

80.0 degrees fahrenheit

Disk Size:

2.000 inches

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A512v0
