Disk Loading Method:

Spring

End Application:

Strategic sealift conversion ships class

Valve Operation Method:

Automatic

Mounting Position:

Horizontal

Maximum Operating Pressure:

300.0 bar single response

Opening Pressure Setting:

7.5 bar

Special Features:

Backventil

Style Designator:

Straight thru

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A530b0
