Inlet Connection Type:

Threaded external tube

Maximum Operating Temp:

850.0 degrees fahrenheit

End Application:

Navy weapons code jk, wasp class lhd

Valve Operation Method:

Knob

Maximum Operating Pressure:

10000.0 pounds per square inch

Inlet Thread Size:

0.4375 inches

Inlet Thread Series Designator:

Unf

Product Name:

Bleed and sampling valve

Special Features:

Has 0.1875in. O.D. Barbed outlet/vent tube; 316ss; bleed and sampling valve for crossover valve assembly of 3-1/2in. Navy chain anchor windlass

Material:

Stainless steel

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A519g0
