**Inlet Connection Type:**

Threaded external tube

**Maximum Operating Temp:**

850.0 degrees fahrenheit

**End Application:**

Navy weapons code jk, wasp class lhd

**Valve Operation Method:**

Knob

**Maximum Operating Pressure:**

10000.0 pounds per square inch

**Inlet Thread Size:**

0.4375 inches

**Inlet Thread Series Designator:**

Unf

**Product Name:**

Bleed and sampling valve

**Special Features:**

Has 0.1875in. O.D. Barbed outlet/vent tube; 316ss; bleed and sampling valve for crossover valve assembly of 3-1/2in. Navy chain anchor windlass

**Material:**

Stainless steel

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

A519g0
