End Application:

1" bronze union end gate valve

Valve Size:

1.000 inches

Special Features:

Inlet and outlet connections are socket weld unions; intern. Bore 1.146 in. Min.; design press. 400; design temp. 150; hydrostatic test pressure shell 600 and seat 400; length of body 6 1/16 inch; handwheel 3 inches; and handwheel to ctr of body 4 3/4 inches

Material:

Nickel alloy stem

Material Specification:

Astm-b61 assn standard single material response body

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A500a0
