**Body Material:**

Steel, corrosion resisting, qq-s-763, class 302, 303, 304, 305, 310, or 316

**Body Style:**

Straight thru

**Media For Which Designed:**

Petroleum base fluid

**Flow Control Device:**

Ball

**End Connection Quantity:**

1

**Renewable Seat Ring Type:**

Retaining ring

**Mounting Facility:**

Bolts or flange

**Manual Control Method:**

Lever

**End Application:**

Valve, vapor control, 50mm

**Product Name:**

Vapour control valve for gauging and sampling petroleum and chemicals

**Special Features:**

Bc-2 in micro b; bronze cap included; polytetrafluoroethylene ball; wt, 13lbs

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fig:**

A21100
