Valve Operation Method:

Hydraulic

Operating Temperature Rating:

-65.0 degrees fahrenheit and 275.0 degrees fahrenheit

Port Quantity:

4

Supply Pressure:

3000.0 pounds per square inch

Special Features:

Manufacturers suggested name is hydraulic bleed valve; difference between part number a62195-1 and a62195 is part no. A62195-1 has a guard around bleed button on end of the slide sleeve assembly and part no. A62196 does not have the guard

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A508u0
