Disk Loading Method:

Spring

End Application:

C-17a

Mounting Position:

Vertical

Product Name:

Assembly doubler valve

Special Features:

Switch attaches to check valve w/4 threaded fasteners

Material:

Aluminum body

Media For Which Designed:

Fuel/oil, hydrocarbon single response

Style Designator:

Straight through drop-in cartridge

Supplementary Features:

Flow control device: needle

Furnished Items And Quantity:

2 cap and 1 relief plug

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A530b0
