End Application:

Nha hydraulic manifold assembly; torp tube; nssn class submarine

Largest Outside Diameter:

1.000 inches

Valve Type For Which Designed:

Ball

Stem Actuating End Type:

Threaded externally

Special Features:

Goes on .25 x .50 3 port 2 position valve assembly

Material:

Copper alloy uns c63200

Material Specification:

Astm-b150 aly-c63200 assn standard single material response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A503z0
