Body Material:

Bronze

Flow Control Device:

Bulb

Flow Control Device Material:

Copper

End Application:

Navy equipment

Product Name:

Mr model temperature regulator with 120 to 170 degree f element

Special Features:

Threaded both ends; part number represents valve body model mr (1 inch) with 120 degree to 170 degree f temperature regulating element included

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A21100
