End Application:
Valves, stainless steel inside screw gate
Valve Type For Which Designed:
Gate
Special Features:
200 lbs, w.P at 350f inside screw non rising stem, integral seat, threaded end $1/2$ " $2$ 0 lbs, w.P at 350f inside screw non rising stem, integral seat, threaded end $1/2$ " $2$ 0 lbs, w.P at 350f inside screw non rising stem, integral seat, threaded end $1/2$ " $2$ 0 lbs, w.P at 350f inside screw non rising stem, integral seat, threaded end $1/2$ " $2$ 0 lbs, w.P at 350f inside screw non rising stem, integral seat, threaded end $1/2$ " $2$ 0 lbs, w.P at 350f inside screw non rising stem, integral seat, threaded end $1/2$ " $2$ 0 lbs, w.P at 350f inside screw non rising stem, integral seat, threaded end $1/2$ " $2$ 0 lbs, w.P at 350f inside screw non rising stem, integral seat, threaded end $1/2$ " $2$ 1 lbs, w.P at 350f inside screw non rising stem, integral seat, threaded end $1/2$ 0 lbs, w.P at 350f inside screw non rising stem, integral seat, threaded end $1/2$ 0 lbs, w.P at 350f inside screw non rising stem, integral seat, threaded end $1/2$ 0 lbs, w.P at 350f inside screw non rising stem, integral seat, threaded end $1/2$ 0 lbs, w.P at 350f inside screw non rising stem, integral screw non rising stem
Material:
Stainless steel
Shelf Life:
N/a
Unit Of Measure:
Demilitarization:
No
Fiig:
