End Application:

4820-01-480-0486, calibrated flow valve, 1-1/2" x 1-1/4" end connections, 45 gpm

Component Quantity:

20

Component Document Origin:

Industrial

Document Source:

90800

Document Type:

Mfr drawing

Component Document Page Number:

1 of 1

Nonsupply Items And Quantities:

90800 5711 matched orifice plates (7) and diaphragms (7), 3945 diaphragm retainer (1), 6680-3 orifice plate retainer (1), 8921505 o-rings for 45 gpm (2), and 3946 o-rings (2)

End Item Source:

90800

Document Identification:

2765-c, rev 3

End Item Name:

Valve, calibrated flow, with union ends and tailpieces

Product Name:

Onboard repair parts kit

Special Features:

Parts kit for calibrated flow valve

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No
