End Application:

Auxiliary/misc (w4d)

Valve Type For Which Designed:

Relief

Valve Size For Which Designed:

0.500 inches

Stem Actuating End Type:

Threaded externally

Valve Model Number For Which Designed:

83s44-4/spl

Special Features:

Service usage liquid non-seawater. Similar to 4820-01-342-0491 which is for hx quality control, manufacturing and testing.

Material:

Steel comp 410

Material Specification:

Astm a479-410 cond a assn standard single material response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A503z0
