Body Material:

Copper

Body Style:

Straight thru

Capillary Tube Length:

60.000 inches

Valve Expansion Control Type:

Thermostatic

Valve Equalizer Location:

External

End Application:

P/n hp-5 condensing unit, heat pump onboard 175 ft wlm coast guard vessels

Refrigeration Capacity In Btu Per Hour:

24.0

Special Features:

Removable strainer

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A07100
