Body Material:

Bronze

Media For Which Designed:

Water

First End Connection Type:

Threaded internal pipe

First End Thread Size And Series/type Designator:

0.500 unc

Second End Relationship With First End:

Identical

Second End Thread Size And Series/type Designator:

0.500 unc

Flow Control Device:

Bellows

End Connection Quantity:

2

Regulation Type:

1st stage manual, 2nd stage automatic

Manual Control Method:

Screw

Valve Loading Method:

Bellows

Maximum Inlet Pressure Rating:

150.0 pounds per square inch

Filter:

Not included

End Application:

Condensing unit, heat pump p/n hp-1 onboard 175 ft wlm coast guard vessels

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A21100
