**Body Material:**

Brass

**Outside Surface Treatment:**

Nickel

**Mounting Facility:**

External thread

**End Application:**

Used on e-3a awacs aircraft

**Special Features:**

Op pressure maximum 200 psi; 0.125 in npt thd for mtg; 0.302-32 ns thd for sealing cap; lgth 0.880 in; hex diameter 0.440 in; allows pressurizing of filters p/n 643000-04, -05, and 644800 for electronic purposes or allowing the unit to perform at higher power levels

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

A21100
