Brass Outside Surface Treatment: Nickel Mounting Facility: External thread End Application:
Nickel Mounting Facility: External thread
Mounting Facility: External thread
External thread
End Application:
Used on e-3a awacs aircraft
Special Features:
Op pressure maximum 200 psi; 0.125 in npt thd for mtg; 0.302-32 ns thd for sealing cap; Igth 0.880 in; hex diameter 0.440 in; allows
pressurizing of filters p/n 643000-04, -05, and 644800 for electronic purposes or allowing the unit to perform at higher power levels
Shelf Life:
N/a
Unit Of Measure:
Demilitarization:
No
Fiig:
A21100
