End Application:

Naval applications

Port Quantity:

2

Port Diameter:

0.125 inches

Stem Accommodation Quantity:

1

Port Configuration:

Angle

Special Features:

Pressure rating 2500 psig; temperature range 50 degrees f to 150 degrees f; size is 1/4 inch using fractional swagelok tube fittings; panel thickness is 1/4 inch

Material:

Copper alloy 360

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A500t0
