Flow Control Device:

Stem

End Application:

Valve, vent modified

Valve Operation Method:

Automatic

Product Name:

Inavy)valve, vent modified (drawing) vent mod to update vh-g and vh-8 for er steam containment

Material:

Nickel alloy 502 body

Material Specification:

Qq-n-286 federal specification single material response body

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A046b0
