Bonnet Type:

Packing retaining

Minimum Operating Temp:

-17.0 degrees celsius

Valve Operation Method:

Manual

Valve Size:

0.500 inches

Face To Face Distance:

4.600 inches

Special Features:

Max. Pressure rating 6000 psi on polychlorotrifluoroethylene, 1500 psi on plastic polytetrafluoroethylene, 6000 psi on plastic polyamide;
max. Operating temp. 250 degf on polychlorotrifluoroethylene, 450 degf on plastic polytetrafluoroethylene, 250 degf on plastic polyamide

Material:

Steel comp 316 stem

Material Specification:

Sae-ams 3650 assn standard 1st material response seat or astm-d1710 assn standard 2nd material response seat

Style Designator:

Err-090

Furnished Items And Quantity:

1 handle and 1 nut

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A046b0
