Body Material:

Zinc

Body Style:

Straight thru

Media For Which Designed:

Air

End Connection Quantity:

2

Mounting Facility:

Panel

Outlet Pressure Range:

+5.0/+125.0 pounds per square inch

Regulation Type:

Manual single stage

Manual Control Method:

Knob

Valve Loading Method:

Spring

Remote Actuation Method:

Diaphragm

Maximum Inlet Pressure Rating:

250.0 pounds per square inch

Filter:

Not included

Temperature Rating:

Between 0.0 degrees fahrenheit and 200.0 degrees fahrenheit

Special Features:

This 0.500 inch port-size air pressure regulator also has a 0.250 inch gauge port; gauge is not included; has relieving option; brass valve included; seals and diaphragm are buna-n rubber with nylon reinforcement; air flow is 256 scfm; regulator is controlled via standard knob or panel mount option

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No
