Body Material:

Bronze, astm b61

Body Style:

Straight thru

Media For Which Designed:

Water, salt

Face To Face Distance:

Between 10.688 inches and 10.812 inches

Flow Control Device:

Disk

End Connection Quantity:

2

Renewable Seat Ring Type:

Threaded

Mounting Facility:

Flange

Valve Loading Method:

Spring

Filter:

Not included

End Application:

E/i: seawater pressure reducing valve, 2.00ips. W/s: nimitz class cvn.Featgstem and seat ring material: cst, monel astm-a494, flanged connections, 25-60 psi. Rating, 250 psi rating.

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A21100
