Body Material:

Aluminum alloy

Media For Which Designed:

Hydraulic fluid, mil-h-5606 or oil

End Connection Quantity:

1

Manual Control Method:

Screw

Valve Loading Method:

Spring

End Application:

E/i: control panel ga-8201

Temperature Rating:

Between -40.0 degrees fahrenheit and 248.0 degrees fahrenheit

Special Features:

Seal kit p/n: 565804 buna-n; viton p/n: 889599

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A21100
