End Application:

4820-01-499-0612 valve, ball

Port Quantity:

2

Stem Accommodation Quantity:

1

Port Configuration:

Straight

Special Features:

Goes to ball valve used in a hypochlorinator system that is part of an ejection pipe assembly

Material:

Titanium

Material Specification:

Titanium cp gr. 2 assn standard single material response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A500t0
