Ball Valve - Page 1 of 1

View Online at https://aerobasegroup.com/nsn/4820-01-501-2888

Pipe Size Accommodated: 0.750 inches all ends End Application: Heater wtr el; w/s ohio class ssbn (trident) Connection Style: Socket all ends Valve Operation Method: Manual Connection Type: Unthreaded internal pipe all ends Product Name: Valve, ball 3/4 inch top load hydraulic service Special Features: Ball valve per design notice dn330687d2; this design notice is listed under dwg no. 6405334d02; valve is 3/4" locked shut version having knob; for bleed versions having handle, see other assemblies per navsea dwg no. 6405334; seat material is nylatron; for hydraulic serv Material: Steel uns j92910 body Material Specification: Qq-s-763 cl 304 cond a federal specification single material response flow control device Style Designator:
