End Application:

Nha 4820-01-503-2497 restrictor manifold valve assembly; seawolf class ssn

Pressure Rating:

3000.0 pounds per square inch

Special Features:

Mfr calls item "plunger"; plunger operates in conjunction with the adjust screw (21270-1005-1) to control flow into quiet element as well as the rest of the valve; material iaw astm b150 c63200 with alternate material iaw astm b150 c63000 or c64200

Material:

Copper alloy

Media For Which Designed:

Hydraulic fluid

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A539y0
