Minimum Operating Temp:

-30.0 degrees celsius

Connection Style:

Plain (pipe) 1st end

Valve Operation Method:

Automatic

Connection Type:

Threaded external pipe 1st end

Special Features:

For low-volume air tanks to retard excessive pressure buildup; corrosion resistant construction; constructed of brass and stainless steel for compressed air and water service

Material:

Copper alloy body

Media For Which Designed:

Air 1st response

Style Designator:

Screw-in cartridge

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A046b0
