Flow Control Device:

Plug

Valve Operation Method:

Automatic

Mounting Facility:

Threaded fastener

Product Name:

Relief control head valve

Special Features:

Used as a 2nd stage relief valve sub-assy on sv115 primary relief valve; like 4820-01-185-6666 in all ways except includes orifice plug and seal plate.

Material:

Steel body

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A046b0
