End Application:

Valves; w/s moored training ship.

Product Name:

Gland

Center Hole Diameter:

0.438 inches

Special Features:

This gland goes into check valves. The material and specification from drawing number 155006 is st'less steel type 303 ams 5640 tr1.

Material:

Steel comp 303

Material Specification:

A314, s30300, steel, comp 303 assn standard single material response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A501s0
