**Valve Discharge Flow Rate:**

220.0 cubic feet per minute

**Width:**

1.500 inches all ends

**Length:**

4.000 inches all ends

**Valve Operation Method:**

Automatic or manual

**Power Drive Operating Pressure:**

5.0 pounds per square inch

**Thickness:**

2.630 inches all ends

**Special Features:**

Media - petroleum products and non-corrosives; fits 2-inch bung hole in steel and plastic drums; works on most drums

**Material:**

Copper alloy

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fig:**

A046b0
