Disk Loading Method:

Spring

End Application:

Manifold assembly for seawolf class ssn

Valve Operation Method:

Automatic

Adjustable Pressure Range:

+1000.0/+3000.0 pounds per square inch

Product Name:

Fast-acting, pilot operated, balanced piston, relief valve

Media For Which Designed:

Hydraulic fluid, petroleum base single response

Style Designator:

Err-090

Furnished Items And Quantity:

1 filter screen

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A046b0
