Disk Loading Method:

Spring

End Application:

Reverse osmosis water purification system

Connection Style:

Socket (tube) all ends

Valve Operation Method:

Automatic

Connection Type:

Unthreaded internal tube all ends

Opening Pressure Setting:

1.0 pounds per square inch

Outside Diameter Tube Accommodated:

0.500 inches all ends

Special Features:

Inconel spring; next higher assembly: piping system, metal

Material:

Steel comp 316 body

Style Designator:

Straight thru

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A530b0
