Disk Loading Method:
Spring
End Application:
Reverse osmosis water purification system
Connection Style:
Socket (tube) all ends
Valve Operation Method:
Automatic
Connection Type:
Unthreaded internal tube all ends
Opening Pressure Setting:
1.0 pounds per square inch
Outside Diameter Tube Accommodated:
0.500 inches all ends
Special Features:
Inconel spring; next higher assembly: piping system, metal
Material:
Steel comp 316 body
Style Designator:
Straight thru
Shelf Life:
N/a
Unit Of Measure:
Demilitarization:
No
Fiig:
A530b0
